

# Universe

Level

6

roleplay

Teacher	Hello boys and girls! Today we are going to start a new unit: The Solar System.
Ann	That's great! I love Universe and I'd like to discover a lot of things related to space.
Teacher	It will be a great time to learn how big space is and we'll answer some difficult questions about it.
Ann	I have many questions I want to know. Do you believe in UFOs?
Teacher	Do not run so much Ann! Step by step. First of all, we'll study the universe, the galaxies, the solar system and after all, we'll answer your question.
Ann	Ok, teacher. I am also interested in knowing how many planets there are in our solar system.
Teacher	Well, I think you are going to discover it by yourself. Here you are some books and the computer to find some information.
Ann	That's great. I am impatient to start. Can I?
Teacher	Yes, of course you can.
